

Animation Four

Why doesn't everyone know this information? How come they're still getting funny objects in the recycling bin. We need to change this, we need to become Bin-fluencers. By producing an bin sticker design, that will let others know how to use their recycling bin correctly. Using either a drink can, food can, glass jar or bottle or plastic tray, we want you to produce a design or a drawing that could be on the bin sticker explaining why and how we recycle this material.

Task Breakdown:

- Download the Bin Sticker Template from the resources section of our website.
- You can download the template [here](#)
- Draw a picture/image encouraging people to recycle this item/material.
- Your design can be produced by hand or on a computer to create an the image.
- Task can be completed individually or in small groups.
- Pupils should be able to demonstrate knowledge about a key item of their choice, applying their knowledge of how this material recycles to encourage others to recycle properly.
