

Animation Three

Now we need to check with the local council or 'recycle now' website to find out where and how each of these materials can be recycled in our local area.

Material	Where and how each of these materials can be recycled in our local area?
Aluminium (Drink Cans)	
Steel (Food Tins)	
Plastic	
Glass	
Paper	
Coffee Cups	

Challenge question: Which of these materials is the most difficult to recycle? In your view, what could/should be done about this?

Write a short paragraph/couple of sentences explaining your thoughts.
